

Please...  
don't leave me at the  
end of the queue.

Victorian children with disabilities and developmental delays are still being left at the end of the queue.

**Our children need:**

- Immediate access to Early Childhood Intervention services. Over 1,000 children are currently waiting for a place in a service.
- Families who are resourced to help them learn and develop.
- Support to achieve in kindergarten and child-care programs.

I call on The Honourable John Brumby, Premier of Victoria, to provide the funding to help all Victorian children realise their full potential.
